APPROVAL

OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the period of use and the average number of livestock served from the waters of this source. The State retains the right to regulate the use of the water herein granted at any and all times but does not take responsibility for the use of the Federal range.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

This permit is subject to the condition that the permittee must ensure that wildlife which have customarily used such water will have access thereto, NRS 533.367.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is issued subject to State Engineer's Ruling No. 3954, dated April 7, 1993.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to

exceed 0.0093 cubic feet per second or sufficient to water300 head of cattle.Work must be prosecuted with reasonable diligence and be completed on or before May 13, 1994Proof of completion of work shall be filed on or before June 13, 1994Application of water to beneficial use shall be made on or before May 13, 1996Proof of the application of water to beneficial use shall be filed on or before June 13, 1996Map in support of proof of beneficial use shall be filed on or before N/ACompletion of work filed MAR 17 1994Proof of beneficial use filed MAR 17 1994
